LOCATION: Corral Canyon Road from the Chula City Limit northerly to the south line of Central Avenue (1.2 miles) BONITA (Thos. Bros. 1311-C3) Sweetwater Community Planning Group

INITIATED BY: DPW Traffic Engineering

REQUEST: Radar Recertification of the Existing 35 MPH Speed Limit

PROBLEM AS STATED BY REQUESTER:

Corral Canyon Road is posted 35 MPH and is radar enforced. Preliminary review of prevailing speeds and roadway conditions support radar recertification for the existing 35 MPH speed limit.

Existing Traffic Devices

Corral Canyon Road is a striped two lane roadway that measures 64 feet wide. There is a two-way left turn lane separating both directions of travel. There are also bike lane and parking lanes in place on both sides of the road. There are also equestrian advisory signs in place. All-way stop controls are present at the intersections of Sprinter Lane, Blacksmith Road and Steeplechase Road. The road is posted 35 MPH/Radar Enforced. This roadway is classified as a Minor Collector on the County General Plan Mobility Element Network. (NOTE: Corral Canyon Road is posted 40 MPH in the City of Chula Vista.)

SUBJECT: Signalization

LOCATION: Dehesa Road and Sycuan Road, DEHESA (Thos. Bros. 1253-C5) Crest-Dehesa Community Planning Group

INITIATED BY: DPW Traffic Engineering

REQUEST: Review Appropriateness for Signalization

PROBLEM AS STATED BY REQUESTER:

Based on traffic signal warrant calculations recently conducted at the Dehesa Road and Sycuan Road intersection, several warrants were met during weekday and weekend conditions. We respectfully request this four-way intersection be reviewed for placement on the County's Traffic Signal Priority List.

Existing Traffic Devices

Dehesa Road, a striped two-lane roadway, varies in width from 40 feet east of the intersection to 53 feet west of the intersection. The west leg has a right-turn only lane with the appropriate advanced notification signs in place. There are left-turn pockets in place for both directions of travel. There also are intersection warning signs with street name plates in advance of the intersection. There is edge striping along both sides of the roadway. The road is posted 50 MPH/Radar Enforced. This roadway is classified as a Rural Collector on the County General Plan Mobility Element Network.

Sycuan Road, the south leg, is a striped four-lane 62 feet wide private road. There is a painted island separating both directions of travel. It is stop controlled with limit lines and pavement legends in place. The roadway is posted 35 MPH. Sycuan Road, the north leg, is a private driveway 15 feet wide.
